Introduction

We are excited to welcome you to our 26th Annual On-Property Bull Sale. Here at Strathmore we are a commercially focused operation. We have been managing our herd organically since 2013. The parameters placed on the management of our herd by being organic has in turn placed subtle pressures on the fertility of our females. That is, supplements are not fed to help the females cycle. They must fall pregnant and rare a calf without the assistance of lick.

Our store cattle are not given hormone replacements. We grow our steers out on grass and receive the feedback data. With the use of a Livestock Management Program we can import and observe the kill specifications of our cattle.

We mother-up at branding time which supports real time observation of how well the dam is rearing her calf and the health of the calf. We have genetic profiles on most females born in 2019 onwards which means we can verify if we have mothered up correctly via DNA testing.

Confirmation, constitution and temperament are a focus in our breeding program. Whether it's a female or male we retain in the herd or bulls we sell, we believe it's important the animal is able to bring longevity to the herd it is apart of. To do so, they must have a good disposition, one that is enjoyable to work with, structural correctness that gives them the best chance of not breaking down and health that enables them to rare or sire a calf year after year. We believe that by aiming to breed animals with a focus on fertility, confirmation, constitution and temperament we can offer you ready-to-work young bulls that will bring value to your herd.

The bulls on offer were weaned into a paddock of Buffel Grass. They were brought into the Homestead in June where we have been feeding them a high roughage mix that we mix ourselves. We believe that we offer them in ready-to-work condition.

Thank you for your interest in our cattle.

Yours sincerely,
The Walker Family

Notice to Buyers

HEALTH - All bulls have been vaccinated for 3-Day, Botulism, 7-in-1 and Vibrio. They have also been injected with 3 Germ Blood. The herd is TB and Brucellosis free.

MEASUREMENTS - Fat scans, eye muscle area, scrotal size, weight and daily weight gain information will be supplied on the day of sale on supplementary sheets.

DNA TESTING - The bulls have been DNA tested care of Zoetis to verify their sires and determine the probability of each of them producing a polled or horned progeny (HornPoll Test). We moved our DNA testing to Zoetis in 2019, we have genetic profiles for our females born from 2019 onwards (Q onwards). Some of the bulls will have their Dam and Sire DNA Verified where their Dam is a 2019 female or younger. The bulls with older Dams (2018 or older that is P and upwards) have been mothered up at the time of branding. The bulls have been HD50K Tested by Zoetis Australia.

HD50K - HD50K provides a DNA profile used for calculation of Genomic Estimated Breeding Values in the Santa Gertrudis BREEDPLAN genetic evaluation. Consequently, some of the bulls on offer have Genomically generated E.B.V's and are available on the Santa Gertrudis Australia Website.

INSTRUCTIONS - All instructions covering delivery of cattle purchased at this sale must be given in writing and signed by buyer or his representative. A tear-off Instruction Sheet is provided for this purpose at the back of the catalogue.

DELIVERY - Delivery will be given at Ravensbourne on the day of the sale. If needed, bulls will be delivered to Blackall. Cattle awaiting trucking will be held free of charge for a period not exceeding two weeks. Every care will be taken but absolutely no responsibility will be accepted.

INSURANCE - Insurance representatives will be in attendance at the sale and will insure your purchases on the fall of the hammer if required.

REBATE - Vendor will allow 3% rebate to outside agents introducing buyers in writing 24 hours prior to the sale and settling on their behalf by 3rd November 2026.

DISCLAIMER - The vendors have produced this catalogue with every effort to ensure the accuracy of the information, however, will not be responsible for any errors or omissions.

Important Notice

All livestock will be sold under the Queensland Livestock Agents Association Limited Standard Stud Stock - Auction Terms and Conditions of Sale that will be displayed on the day of the sale. All persons who attend the sale do so entirely at their risk and Strathmore Santa Gertrudis Stud, the Selling Agents, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever, which may occur.

Semen Morphology

Semen Morphology is the count expressed as a percentage (by an accredited Semen Morphologist) of the normal sperm in an ejaculate from a bull. Some types of abnormal sperm are unable to fertilise the egg while other types of abnormal sperm can fertilise the egg but then cause the resulting embryo to die. It is therefore likely that a sexually active bull with a high percentage of normal sperm will be more fertile than one with a low percentage of normal sperm.

Crush side semen testing without the examination of Semen Morphology is unreliable and incomplete.

The Bull Power Project found that semen quality particularly the percentage of normal sperm was consistently related to a high number of calves on the ground and a more compressed calving.

While a pass for Semen Morphology does not guarantee high fertility, continued failure almost certainly means relatively low fertilisation rates. By retesting the bulls that fail the initial test, our aim is to identify those animals that have a genetic weakness or a predisposition to be affected by outside factors. We place great emphasis on this comprehensive semen analysis and all Strathmore bulls sold must pass The Australian Cattle Veterinary Thresholds for specific and total abnormalities. Bulls that fail are removed from sale.

Test results are subject to change and are affected by sexual maturity, nutrition, to the rate of weight gain or loss, age, genetics, injury, illness, relocation and environmental stresses.

Bulls with results from 70%-100% normal sperm are deemed fertile for single sire mating. Bulls with 50%-69% are deemed as acceptable for multiple sire mating. The total percentage results for all bulls will be stated on the supplementary sheets on the day of Sale.

Sire Information

Strathmore Sensay S48 (PP)

Sire: Strathmore Memphis M18 (AI)(PP)
Dam: Strathmore M677 (P)
Lots: 3, 24, 34, 65, 98

Sensay has been an exciting prospect, he is a cherry red bull with a tonne of sire appeal. He was retained in the stud for his thickness, topline and tidy sheath. He has demonstrated mobility, covering cows in big paddocks with multiple waters. We are looking forward to seeing more of his progeny in the future.

Waco Quinn Q126 (P)

Sire: Waco Flinstone L28
Dam: Waco N555 (P)
Lots: 4, 33, 39, 47, 51, 95, 99

Purchased in 2020 for \$47,500, Quinn displayed a lot of power and thickness. He has a nice tropical loose skin and a very tidy sheath. He has been a consistent performer and highly productive for us.

Sire Information

Greenup Sentinel S60 (P)

Sire: Rosevale Ned Kelly N28 (P)
Dam: Greenup N69 (P)
Lots: 5, 13, 31, 43, 70, 94

Sentinel was purchased for \$60,000 at the 2022 Greenup Eidsvold sale. He is a very well-rounded bull with a great topline and plenty of depth and volume. He also has nice loose skin and a great temperament. He is a free moving bull proving to be a real calf getter.

Yulgilbar Newport N146 (P)

Sire: Cardona Patterson P53 (P)
Dam: Yulgilbar J219
Lots: 2, 14, 26, 30, 37, 38, 68, 86, 87

Newport was purchased by Strathmore at the 2019 Yulgilbar Sale. Despite being only 21months at the sale time he displayed very good growth traits and weight gain. He is a very well-rounded bull. He consistently throws well-muscled calves with plenty of breed character.

Sire Information

Cree Pancho P144 (P)

Sire: Cree Kosciuszko K010 (P)
Dam: Cree Juanita J217 (IVF)(P)
Lots: 45, 88, 90, 96

Hedges Rascal R6 (PS)

Sire: Yarrawonga N154 (PS)
Dam: Hedges M5
Lots: 12, 42, 72, 85

Munnabah Quincy 1624 (P)

Sire: Glenn Oaks Palo P1211 (AI)(ET)(PS)
Dam: Munnabah P2205 (P)
Lots: 50, 54, 63, 102

A large herd of brown cattle is running across a dry, dusty field. The cattle are kicking up a significant amount of dust, creating a hazy atmosphere. In the background, there are two prominent trees: a tall, thin one on the left and a larger, fuller one on the right. A person on horseback is visible on the right side of the image, likely herding the cattle. The sky is clear and blue.
